# TALK TO THE EXPERTS

---

If you're interested in learning how local nonprofits are making a positive impact in our community, the most accurate and efficient way is by **talking directly to the experts** who do this essential work each and every day. Regardless of what sector, district or topic you are interested in, **The Nonprofit Council** will connect you with an agency (or several) who can share important, accurate and relevant information on their own area of impact and expertise. You don't need to rely on third party interpreters or hearsay to get the best, most accurate information. Just follow these easy steps:

## **THE EASIEST WAY TO GET DIRECT ACCESS TO OVER 200 NONPROFIT EXPERTS:**

1. Contact **The Nonprofit Council**
2. We will help you determine which agency/agencies best fit your needs
3. We will connect you with them
